Parent Testimonials:

“Early Learning Center is the best Preschool in Broward County. By the time my daughter Ali was 11 months old she was singing the ABC’S and she learned to share and be kind to others. By the time she was 16 months she was speaking in full sentences and reciting her numbers 1-10. The teachers and Director are fantastic - they build her confidence and always keep me informed about all aspects of my child’s day.

I am also so impressed with the way the school is kept; it is spotless. Early Learning Center has a full time person to keep the school clean and sanitized all day. The school has a very good plan to minimize germs in the school, which prevents kids from having to stay home.”
